

The Royal British Legion provides support for members of the Royal Navy, British Army, Royal Air Force, veterans and their families.

Last year the RBL provided over 37,341 people with expert guidance and support.

The RBL understands that serving personnel can give up a lot to be part of the Armed Forces. We know that family life and relationships can suffer - and sometimes transitioning to civilian life can be even harder.

That's why our support teams are trying to reach those most in need.

We're not the emergency services but if you're struggling, the Royal British Legion can help you get back on your feet.

Help is just a phone call away - call us on 0808 802 8080. Lines are open from 8am-8pm every day.
